of food in 4 moving mobile warehouses

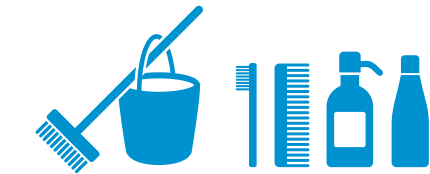

CUBA HURRICANE IAN A MONTH AFTER

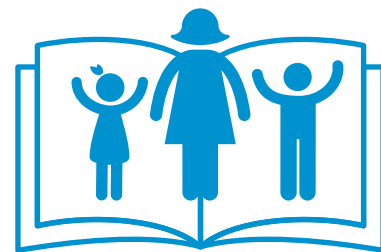

On September 27th hurricane Ian lashed Cuba, leaving a trail of destruction mainly in sectors like housing, agriculture, water and electricity supply as well as other basic services.

The United Nations System in Cuba, supports national and local authorities response with a Plan of Action of 42 millions dollars of which 11.5 are available. A month after, the response is moving forward and, due to the critical damages, crucial needs still have to be fulfilled. To join our effort to support most affected people please consult our Plan of Action at the following link:

<https://reliefweb.int/report/cuba/plan-action-United-nations-system-cuba-hurricane-ian-response-october-2022>
